VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS

4. (Amended) A method, device or source according to [claims 1, 2 or 3] claim 1 wherein the parameters determine at least two of the desired spatial, temporal and format characteristics.
5. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein the parameters determine all of the spatial, temporal and format characteristics.
6. (Amended) A method, device or source according to [any preceding claims] claim 1 wherein the video data is retrieved over a network or the Internet.
7. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein the source comprises a network server or an Internet server.
8. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein the remote user is a computer terminal.
9. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein the source transmits to the remote user a control program to enable the remote user to specify parameters determining the desired spatial, temporal and format characteristics of the video data.
11. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein parameters determining one or both of auditory and visual characteristics are specified, transmitted or received.
12. (Amended) A method, device or source according to [any preceding claim] claim 1 wherein the source is usable by several remote users concurrently.
13. (Amended) A method, device or source according to [any preceding claim] claim 1 whereby the user may specify parameters for the required video customisation, these parameters determining one or more of the following video characteristics: the temporal extent of the original video data to be included in the customized video data, the spatial extent of the original video data to be included in the customized video data, the extent to which the original video
